ATEL Provides Project Management Services

ATEL now offers full consulting and project management services for our clients.

Currently we are providing these services for a new construction Marriott hotel in San Diego.

Our Project team will meet with your management team, contractors, Architects to review the entire "Scope of Work".

This process begins with us gaining a complete understanding of your project from start to finish. We will review the complete set of disciplines & floor plans.

ATEL will provide our recommendations and solutions for "multiple" areas of this project. Our National Director of Sales- Dave Sugino has focused on building our Hospitality clientele by expanding our services & coverage nationwide and also reaching into Canada.

We have recently completed a new construction and development project with the Homewood Suites by Hilton in Mission Valley (San Diego). Our Project team managed the implementation of the new NEC PBX Hospitality Systems including all Admin, guest room & house phones.

We address these specific areas- PBX/Hospitality Systems, Wifi, CCTV Systems & Cameras, Network LAN/WAN design, Voice & High Speed Internet for guest rooms. In-room Entertainment & Programming and also Digital Signage.

ATEL's Project Team will work with you in all these critical areas for your new facilities.
