### About ATEL

ATEL Communications is the telecommunication company that cares. With our 30+ years of experience as technology solution providers, our team has developed a sixth sense about what technology an organization needs to succeed. Our technology solutions are effective, easy and based on your company's needs. ATEL provides everything from; business telephones, VoIP, unified communications, enterprise contact center and cyber security.

Once your needs have been determined, ATEL has the IT experience to ensure that we engineer what you need so it will work exactly as your business requires. We make sure that we have live staff available to answer your calls during business hours so that if you have a technology issue there is a person available to assist you.

Our job is to keep you connected to your customers, and we're very passionate about doing that job with excellence. Whether you have old technology that needs to be updated, you're business is growing, or you want to unify your company's technology, let ATEL satisfy your business communications needs.
