

Designed with the professional’s needs in mind, the new 600d line of DECT phones helps businesses keep their workforce more responsive and productive while on the move. With its high quality and confidential calls through voice optimization, DECT offers a cost-effective mobility solution for companies that need to supply wireless phones to staff primarily mobile within the company premise, making it especially suitable for vertical markets such as education, healthcare or retail.

Aastra’s 600d family provides the right mobile assistant for your communication needs, whatever the application. The phones’ outstanding speech quality makes for crystal-clear mobile communications. And operation itself is so simple and intuitive that the User’s Manual is certain to gather dust. The large 2” display is perfectly designed for optimum overview and good legibility.
